Although this new ATV bylaw has just come into effect in 2020, we are hearing great comments that the jurisdictions are making our recreational area more friendly to the sport of recreational ATV'ing. A steering committee has met to discuss how we can advance ATV use in the area responsibly while balancing each jurisdictional requirement, their strategic plans and environmental stewardship responsibilities. Discussion has also taken place improving signage, improving the terrain of the ditch, and improving the bylaw. Plans are in place to improve the area maps to help navigate lawful areas to operate.
